ROUND 2 ASSESSMENT

Build Challenge + Video Response

Full Name

Department and
College

Part 1	Part 2	Deadline
Build a Working Tool	Record a Video Response	Wednesday, 20 May 2026 -- 10:00 PM

Both parts are mandatory. Submitting only one part is an incomplete submission.
Deadline is Wednesday, 20 May 2026 at 10:00 PM. Late submissions will not be reviewed.
Read all instructions before starting. Questions: anil.kumar@mypromovideos.com

PART 1 -- BUILD CHALLENGE

You are required to build a fully working, live web application. The tool must be deployed and accessible via a public URL. A prototype or a local-only build will not be accepted.

What we are looking for:

- A live deployed web application accessible via a public URL
- Clean, usable UI that a non-technical person can use without guidance
- A tool that actually works with real data, not placeholder or mock outputs
- Readable, well-structured code
- Depth of understanding in the output -- the report should show real insight, not just surface-level data

The Tool: Video Competitor Intelligence and Report Generator

Build a web application where a user can input their own company name and up to 4 competitor names. The tool fetches publicly available video and channel data for all companies, analyses it, and generates a downloadable PowerPoint report.

What the tool must do:

- Accept a company name and up to 4 competitor names as input
- Fetch publicly available YouTube and video data for all entered companies
- Analyse the data across all companies and generate a comparative report
- Display the report as a web page the user can read before downloading
- Allow the user to download the full report as a PowerPoint file (.pptx)

What the PowerPoint report must include (minimum 10 slides):

- Cover slide with company names and report date
- Executive summary -- who is leading in video marketing and why
- Channel overview comparison -- subscriber count, total videos, upload frequency
- Content performance -- top performing videos by views and engagement for each company
- Content topics and themes -- what each company covers and what they are missing
- Posting frequency and consistency -- who is most active and on what cadence
- Engagement analysis -- average views, likes, and comments per video
- Gap analysis -- topics and formats competitors are not covering
- Video marketing recommendations -- specific, actionable steps based on the data
- Summary slide with a score or ranking of all companies on key metrics

Design requirements for the PowerPoint:

- Professional layout -- not default PowerPoint templates
- Charts and graphs for data that benefits from visualisation
- Consistent colour scheme and typography throughout
- Each slide should be readable and not overcrowded
- The report should feel like something you would present to a client

The report must show real understanding of video marketing strategy.

A report that only shows numbers without insight will score low.

Think about what the data means and what a video marketing team would actually do with it.

The depth of the analysis matters as much as the technical build.

Submission requirements for Part 1:

1. **Live URL** -- A public link where the tool is deployed and working. Must be accessible without login.
2. **Code zip file** -- The complete source code zipped and attached to your submission email.
3. **Screen recording** -- A video showing the tool working end to end. Enter real company names, show the report generating, show the download working. Maximum 5 minutes.

All three must be included. A submission missing any one of these will not be evaluated.

PART 2 -- VIDEO RESPONSE

Record a single video answering all five questions below. Keep the full video between 3 and 5 minutes. Answer each question directly and move to the next. You do not need a studio setup -- your phone or laptop camera is fine.

Recording instructions:

- One single video answering all five questions
- Between 3 and 5 minutes total
- Answer each question in order
- Upload to Google Drive or any shareable platform and include the link in your submission email
- Label the file: VideoResponse_YourName

The Five Questions:

**Q
1**

Introduce yourself. Who are you, what do you study, and what specifically made you apply for this role? Be direct and specific.

**Q
2**

You built a Video Competitor Intelligence tool for this round. Walk us through what you built, what decisions you made in the process, and what you think is the strongest part of what you delivered.

**Q
3**

What specifically makes you a good fit for this role? Not a general answer -- be precise about what you are good at, what you have done that is relevant, and why you think you will add value here over someone else.

**Q
4**

A customer who subscribed to a dairy products brand for over a year has gone completely silent -- no orders in 3 months, no response to any automated messages. What outreach campaign would you design to win them back? Walk through your strategy and what the first message would actually say.

**Q
5**

A dairy subscription brand wants to run a campaign during a festival season to acquire new customers who have never heard of them before. How would you approach this campaign, what would the offer look like, and how would you get in front of the right people?

**Q
6**

You have just joined a company. Their website gets 800 visits a month and generates zero leads from organic search. Your manager gives you 30 days and no budget. What do you do first, what does your week one look like, and what would you measure at the end of the month to know whether it is working?

HOW TO SUBMIT

Email to	anil.kumar@mypromovideos.com
Subject line	Round 2 -- [Your Name] -- [Your College] -- [Your Department]
Deadline	Wednesday, 20 May 2026 at 10:00 PM
Part 1 Item 1	Live URL of the deployed tool
Part 1 Item 2	Source code as a .zip file attached to the email
Part 1 Item 3	Screen recording link showing the tool working end to end
Part 2	Single video link answering all 5 questions (3 to 5 minutes)
Video file name	VideoResponse_YourName

Checklist before you submit:

- Live tool URL is working and publicly accessible
- Code zip file is attached to the email
- Screen recording shows real input, report generation, and PPT download
- Single video uploaded and link is shareable
- Video file is labelled VideoResponse_YourName
- Email sent before Wednesday 20 May 2026 at 10:00 PM

Submissions that will not be reviewed:

- Tool URL is broken, private, or requires a login
- Code zip file is missing
- Screen recording is missing or does not show the full flow
- Video link is private or expired
- Submitted after the deadline
- Missing either Part 1 or Part 2

Good luck. We are looking forward to seeing what you build.
